

US: Precision Custom Coatings expands Asian production

5 June 2006 | Source: just-style.com

Precision Custom Coatings LLC, a US-based producer and supplier of nonwoven and coated fabrics, has signed a joint venture with Ningbo Yihua Textile Factory to produce apparel interlinings in Asia.

The new venture, PCC Ningbo Textile Co Ltd, officially translated as Ningbo Mei-Yi Textile Co Ltd, will help the company to build relationships with apparel manufacturers in the region.

The partnership will also offer Ningbo Yihua Textile Factory added exposure outside of China.

“As one of few interlining manufacturers based in the United States, Precision Custom Coatings is continuing its growth within an otherwise contracting industry by further securing our foothold within the Asian market,” said president Scott Tesser.
